

Uganda

General Information (2008):
 Population (x1000): 31.657;
 Urban Population: 13%
 Under five Mortality: 135 per 1000
 Population living below US\$ 1.25/day: 52%

Sanitation and Drinking Water Country Profile

DRAFT
 For Discussion

- Uganda is on-track to achieve the MDG drinking water target
- Uganda is off-track to achieve the MDG sanitation target

COVERAGE STATUS AND TRENDS

67% of the population has access to improved drinking water supply

10% of the population practice open defecation

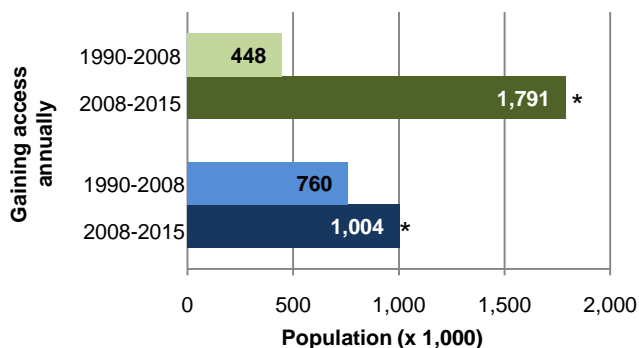

The majority of the unserved are in rural areas

SCORECARD ON BUILDING BLOCKS FOR SERVICE DELIVERY

The country status overview scorecard is a performance management tool assessing whether sector and subsector service delivery operations are aligned with intended sector outcomes. The service delivery pathways set out a sequence of building blocks. Together these building blocks are a hypothesis of what the most important cause and effect relationships in a sub-sector program are. The Scorecard benchmarks the country service delivery pathways which turn money into water and sanitation services in each of four subsectors.

EXTERNAL SUPPORT AGENCIES LANDSCAPE

Donors active in national co-ordination or harmonization platforms	Other donors provided at least \$1 million in aid (disbursement in 2008 in millions)
n.a.	n.a.

COMBINED DONOR AND GOVERNMENT ALLOCATIONS (\$ Million, 2008)

DRIVERS AND BARRIERS

Drivers of Progress

- 1) Policy on drinking water agreed by stakeholders and approved by cabinet
- 2) Investment program for sanitation and drinking water sub-sectors, based on MDG needs assessment, operationalized
- 3) Annual review process on sanitation and drinking water sub-sectors in place

Barriers to Meeting the MDGs

- 1) Financial flows in the sanitation and drinking water sector cover less than 50% of needs
- 2) No criteria for equitable distribution of funding to unserved and poor populations in the sanitation and the drinking water sector existing or applied
- 3) No policy on sanitation sector existing
