Card 01 - World Water Day 2020

#SafeHands on #WorldWaterDay
Handwashing is essential to limit the spread of #COVID19.
Wash your hands using soap and water or alcohol-based hand rub.
For #WorldWaterDay, let’s show our best hand hygiene moments to fight #COVID19.
Please don’t forget to turn off the tap!

Card 02 - A historic perspective
170 years ago, Florence Nightingale implemented handwashing and other hygiene practices in the war hospital in which she worked, reducing infections and saving many lives. We remember her as we fight the #COVID19 outbreak.
#Safehands on #WorldWaterDay

Card 03 – The current situation
3 billion people live without basic handwashing facilities at home.
In the face of #COVID19, they are among the most vulnerable & the most at risk to be left behind.
Help mobilize action for access to handwashing - #Safehands on #WorldWaterDay:

Card 04 – Ongoing work, SDG6
#Safehands for all will help achieve many #SDGs
Making handwashing part of daily routines is an effective way to reduce diseases and help achieve many SDGs.
