

SWA EVENT AT THE HLPF

2020

Accountability for the Elimination of Inequalities in the Water, Sanitation, and Hygiene COVID-19 Response

8 July, 12:00 - 13:30 EST

In its [World Leaders' Call to Action](#) on COVID-19, the Sanitation and Water for All partnership, more than 85 leaders called upon governments to make water, sanitation and hygiene available to everyone, eliminate inequalities and leave no one behind.

These measures are critical to protect vulnerable populations but underlying questions remain: who assumes accountability for action? Who can hold those responsible accountable? And what are the tools available or necessary to perform those functions of accountability?

Speakers:

- Catarina de Albuquerque CEO, SWA
- Brands Kehris, Assistant Secretary General for Human Rights
- Kelly Ann Naylor, UNICEF, Associate Director, Water, Sanitation, and Hygiene
- Robert Gakubia, Kenya Regulator
- Barbara Schreiner, Executive Director, Water Integrity Network
- Yamileth Astorga, President, Institute of Aqueducts and Sanitation (AYA), Costa Rica
