

## Pitch your story !

We are looking for news articles, impact stories, and opinion pieces that stimulate discussions and help highlight how water, sanitation and hygiene access is leading to positive change. The pieces we are looking for:

**SWA impact story about an activity inspired or encouraged by SWA with attributable outcomes**, including:

- High-level political prioritization of water, sanitation and hygiene sector,
- Committed leaders driving increased sector performance and creditworthiness
- Partners holding each other accountable for implementing and reviewing priorities and commitments
- Government-led multi-stakeholder platform (such as Joint Sector Reviews) are created/strengthened to drive collective action and accountability,
- Peer-to-peer learning opportunities are created and multiplied to support better decision making and analysis
- Meaningful engagement is created with the related ministries and partnerships, such as Finance, Health, Education and Climate Change

**Opinion or discussion pieces about topics that are currently relevant for the sector, including SDGs, COVID-19, climate change, financing, gender, human rights, and inequalities.**

Please submit your proposal for your stories in 200 words or less and we will contact you to agree on the approach and next steps.

Stories can be submitted in English, French or Spanish.
