Togo

STATE OF WATER, SANITATION AND HYGIENE
For a population of 8,279,000 people (2020)¹

1 in 15 children die under the age of five (6.7% child mortality) each year²

3444 people die due to lack of access to WASH each year³

Togo ranks 167 on the Human Development Index.⁴

For wealth equality, the GINI coefficient is 43.1. In terms of gender equality⁵ Togo, ranks 26 in the region and 145 in the world⁶

Based on available trends:

To ensure 100% safely managed water by 2030, around 17 times faster progress is needed.

To ensure 100% safely managed sanitation by 2030, around 50 times faster progress is needed.

To ensure 100% handwashing facilities with soap by 2030, around 12 times faster progress is needed.

WATER
- Safely managed water
- Basic water

SANITATION
- Safely managed sanitation
- Basic sanitation
- Open defecation

HYGIENE
- Basic hygiene service

SCHOOLS⁷,⁸

20% Basic water (2019)
65% Basic sanitation (2019)
58% Basic water (2016)
ND Basic sanitation

CLIMATE AND SDG 6\textsuperscript{x,xi,\textit{xii},\textit{xiii}}
90\% of the problems caused by climate change are weather related, which have significant connections to the water cycle and overall availability of water.\textsuperscript{xiv} Since 2000, there have been 8 climate, hydrological and meteorological disasters with an average of 372,755 people affected and 80 deaths in the country attributed to these. Togo is ranked 134 out of 182 countries in regards to its vulnerability and readiness to successfully adapt to climate change. Togo is ranked 146 on the planetary pressures-adjusted HDI (PHDI).

SWA RESULTS FRAMEWORK

**Objective 1: Build and sustain the political will to eliminate inequalities in water, sanitation and hygiene**

Vulnerable groups: there are government reported measures targeting vulnerable groups for water, sanitation, and hygiene. \textsuperscript{xv}

**Objective 2: Champion multi-stakeholder approaches towards achieving universal access to services**

Achievements: 0\% of the commitments have been achieved. More information can be found on the country page.\textsuperscript{xvi}

Government-led National Reviews: National multi-stakeholder review mechanism exists for: drinking water, sanitation, hygiene. Points to improve: actions based on mutual review and agreed framework, evidenced-based decision making.\textsuperscript{xvii}

**Objective 3: Rally stakeholders to strengthen system performance and attract new investments**

WASH Budget as \% GDP: \textsuperscript{xix} The WASH budget is 0.66\% of the GDP (2017) Regional average: 0.46\% (2018)

Economic return: Every dollar invested in the rural poorest quintile has an economic return of 8 dollars in Sub-Saharan Africa.
